## Background and Experience

Since moving to Western North Carolina in 1967, Mr. Nilsson has been continually involved in the construction industry building houses, apartments, commercial and industrial facilities. In January, 1973 he obtained his general contractors license and has had his own business, Nilsson Construction Co., Inc., since that time. Nilsson Construction Co. has built over 500 homes and apartments in Henderson and Buncombe counties. During the past 13 years Nilsson has completed over 100 homes in the exclusive Champion Hills community in Hendersonville.

Nilsson Construction is also involved in commercial and industrial development. In 2001 the company built a new Grill Room, a Dining Room Addition, a Sales Office and a Fitness Center at Champion Hills in Hendersonville. In 2004, a fellowship hall and narthex addition were completed for Piney Mountain Methodist Church in Candler, NC. In 2007, a professional office building in Black Mountain was completed utilizing "green" construction practices for a LEED certification.

Because of Mr. Nilsson's structural and foundation engineering background and experience, Nilsson Construction Co. is well qualified to build on the most difficult sites. Nilsson provides professional site planning, building design and interior design services.

## Goal

Nilsson strives to deliver every project on-time and on-budget while maintaining acute attention to detail and delivering master craftsmanship in construction.
